

Jeeva K

Passionate and Innovative web developer with front-end and responsive design expertise, merging creativity and technical skills to create user-friendly, visually appealing websites driven by a passion for technology and industry trends.

EXPERIENCE

LetsGrowMore — Web Developer Intern

- **Get User's Data from an API**

Built with HTML, CSS, and JS, 'API DataFetch' is a web app that fetches user data via APIs. Experience seamless data retrieval and display for an enhanced user experience

- **To-Do List App**

Created using HTML, CSS, and JavaScript, my To-Do List App project presents a streamlined task management solution. Users can organize, update, and track tasks seamlessly, enjoying a responsive interface for enhanced productivity and organization

CodSoft — Web Developer Intern

- **Calculator App**

created a user-friendly calculator application using HTML, CSS, and JavaScript. This app allows users to perform basic arithmetic operations conveniently within their web browser. Its intuitive design and responsive interface provide a simple tool for quick calculations.

- **Landing page for Digital Marketing Agency**

Utilizing HTML, CSS, and JavaScript, my digital marketing website project offers an engaging platform. It showcases services, resources, and insights, providing an interactive hub for businesses seeking to navigate the digital marketing landscape effectively.

EDUCATION

K.S.Rangasamy College of Technology , Thiruchengode

BE – Computer Science And Engineering

CGPA: 7.23

PROJECTS

Grocery Website

Designed using HTML, CSS, and JavaScript, my grocery project is a user-friendly website providing a seamless shopping experience for managing grocery items with an interactive interface.
